seanjohncamara.vercel.app | github.com/sean-camara | linkedin.com/in/sean-john-camara-ab78a3321

PROFESSIONAL SUMMARY

Junior frontend and full-stack developer with paid freelance, academic, and independent project experience building responsive applications with React, Next.js, TypeScript, Node.js, REST APIs, databases, testing, and cloud deployment. Seeking a junior development role where I can contribute practical end-to-end development skills and continue growing within a professional team.

PROFESSIONAL EXPERIENCE

Freelance Frontend Developer | Yhan's Catering Services

Aug 2026 – Present

- Designing and developing a responsive catering business website using React, TypeScript, Vite, and Tailwind CSS based on client requirements, branding, menus, and event content.
- Managing client communication, UI implementation, image optimization, revisions, and Vercel deployment for a paid professional engagement.

Independent Full-Stack Developer | Personal & Academic Projects

2025 – Present

- Build web and Android applications covering interfaces, APIs, databases, authentication, real-time features, automated testing, and deployment.
- Configure development and deployment workflows using GitHub Actions, Docker, CI/CD, Vitest, Playwright, and blue-green deployment practices.

Customer Service Representative | Concentrix | Amazon Selling Partner Support

Mar 2024 – Sep 2024

- Supported Amazon selling partners through case-based troubleshooting, clear guidance, documented resolutions, and coordinated issue handling.

SELECTED PROJECTS

Yhan's Catering Services — Paid Client Project | React / TypeScript

- Building a responsive customer-facing catering website with service packages, menus, food trays, event galleries, inquiry pathways, optimized media, and production deployment.

RMV Stainless Steel Fabrication — Academic Capstone | React / Node.js

- Built role-based dashboards for appointments, projects, payments, reports, documents, and fabrication progress; integrated authentication, Socket.IO, file handling, PayMongo, testing, and deployment automation.

ApplyPH — Personal Project | Next.js / Supabase

- Building a mobile-first PWA for Filipino job seekers with guided resume workflows, evidence-linked match reports, private application packages, and application tracking.

ShelfLife — Android Project | Kotlin / Compose

- Created a pantry and expiry tracker with Room, Firebase, ML Kit, barcode scanning, receipt workflows, and protected AI-assisted recipe features.

CORE COMPETENCIES & SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, responsive design, accessibility, PWA

Backend & APIs: Node.js, Express, REST APIs, authentication, role-based access control, Socket.IO, PayMongo integration

Data & Cloud: PostgreSQL, Supabase, MongoDB, Firebase, Cloudflare, DigitalOcean, Vercel

DevOps & Testing: Git, GitHub, GitHub Actions, CI/CD, Docker, Linux, blue-green deployment, Vitest, Playwright

Additional: Kotlin, Jetpack Compose, Android Studio, .NET MAUI, Unity, Room, ML Kit

EDUCATION

Bachelor of Science in Computer Science (Undergraduate) | STI College Fairview

- Course highlights: Web development, database management, software engineering, systems analysis and design, object-oriented programming, Android Studio, .NET MAUI, and Unity.
