

SEAN JOHN CAMARA

JUNIOR FRONTEND DEVELOPER

Quezon City, Philippines | +63 991 024 8649 | camara.sean13@gmail.com
seanjohncamara.vercel.app | github.com/sean-camara | LinkedIn

PROFESSIONAL SUMMARY

Junior frontend developer building responsive, accessible React, Next.js, and TypeScript applications. Experienced with REST API integration, authentication, PWA workflows, automated testing, and deployment, with supporting full-stack and native Android experience.

WORK EXPERIENCE

Concentrix | Customer Service Representative | March 2024 - September 2024

Amazon Selling Partner Support (ASPS) | UP Ayala Technohub, Quezon City

- Assisted Amazon selling partners with account and platform concerns, providing clear guidance and case-based support.
- Documented interactions, followed support procedures, and coordinated resolutions while meeting quality and service standards.

PROJECT EXPERIENCE

ApplyPH | Independent Developer | Personal Project | In active development | Repository

- Building a mobile-first Next.js and TypeScript PWA for Filipino job seekers with guided resume workflows, evidence-linked match reports, application packages, and tracking.
- Integrated owner-scoped Supabase data and private document flows, with Vitest component tests and Playwright browser-test foundations.

RMV Stainless Steel Fabrication | Full-Stack Developer | Academic Capstone | Frontend | Backend | Demo

- Built responsive React and TypeScript dashboards around a local fabrication business workflow, including appointments, projects, payments, reports, documents, and fabrication progress.
- Connected authenticated role-based interfaces to an Express and MongoDB REST API, real-time updates, file handling, and payment workflows.

AcademiaZen | Full-Stack Developer | Personal Project | Frontend | Backend | Demo

- Developed a responsive React and TypeScript student dashboard for subjects, tasks, calendars, study sessions, file organization, and notifications.
- Implemented PWA behavior, Firebase authentication, REST API integration, and automated coverage with Vitest and Playwright.

ShelfLife | Android Developer | Personal Project | Repository

- Created a Kotlin and Jetpack Compose pantry tracker using Room, Firebase, and ML Kit for local inventory, expiry, barcode, and receipt workflows.

FlowMoney | Full-Stack Developer | Personal Project | Backend | Demo

- Built a responsive finance dashboard for income, expenses, goals, and data visualization, integrated with an Express and MongoDB backend API.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, HTML5, CSS3

Backend and APIs: Node.js, Express, REST APIs, authentication

Testing and tools: Git, GitHub, Vitest, Playwright, Vite, Vercel

Frontend: React, Next.js, responsive design, accessibility, Tailwind CSS, PWA

Data and cloud: Supabase, PostgreSQL, MongoDB, Firebase, Cloudflare

Additional: Kotlin, Jetpack Compose, Room, ML Kit

EDUCATION

STI COLLEGE FAIRVIEW | Bachelor of Science in Computer Science coursework | Completed through third-year standing
