PROFESSIONAL SUMMARY

Junior frontend and full-stack developer with paid freelance, academic, and independent project experience building responsive applications with React, Next.js, TypeScript, Node.js, REST APIs, databases, testing, and cloud deployment. Seeking a junior development role where I can contribute practical end-to-end development skills and continue growing within a professional team.

PROFESSIONAL EXPERIENCE

Independent Full-Stack Developer | Personal, Academic Projects, and Paid Freelance Projects 2025 – Present

- Build modern full-stack web applications from frontend to backend, including APIs, databases, authentication, real-time functionality, testing, and deployment.
- Leverage AI-powered development tools throughout the software development lifecycle for rapid prototyping, code generation, debugging, optimization, documentation, and workflow automation.

Customer Service Representative | Concentrix | Amazon Selling Partner Support Mar 2024 – Sep 2024

- Supported Amazon selling partners through case-based troubleshooting, clear guidance, documented resolutions, and coordinated issue handling.

SELECTED PROJECTS

Aghimuan Creatives — Multimedia Portfolio Website | React / TypeScript

- Designed and developed a responsive React and TypeScript portfolio showcasing 50 photography and video projects with category filtering, media viewers, and mobile-friendly navigation.

Yhan's Catering Services — Paid Client Project | React / TypeScript

- Building a responsive customer-facing catering website with service packages, menus, food trays, event galleries, inquiry pathways, optimized media, and production deployment.

RMV Stainless Steel Fabrication — Academic Capstone | React / Node.js

- Built role-based dashboards for appointments, projects, payments, reports, documents, and fabrication progress; integrated authentication, Socket.IO, file handling, PayMongo, testing, and deployment automation.

AcademiaZen — AI-Powered Academic Productivity Platform | React / TypeScript / Node.js

- Developed a full-stack PWA helping students manage academic tasks, run Pomodoro focus sessions, organize and review PDF materials, generate AI-powered quizzes, and track productivity; integrated Firebase Authentication, MongoDB, Cloudflare R2, push notifications, and secure subscription payments.

ShelfLife — Android Project | Kotlin / Compose

- Created a pantry and expiry tracker with Room, Firebase, ML Kit, barcode scanning, receipt workflows, and protected AI-assisted recipe features.

CORE COMPETENCIES & SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3, Kotlin

Frameworks & Libraries: React, Next.js, Express.js, Tailwind CSS, Jetpack Compose, .NET MAUI, Socket.IO

Backend & APIs: Node.js, RESTful APIs, Authentication, Role-Based Access Control (RBAC), Third-Party API Integration, PayMongo

Databases & Backend Platforms: PostgreSQL, Supabase, MongoDB, Firebase, Room

AI-Assisted Development: ChatGPT, Codex, AI-assisted coding, debugging, code review, prototyping, research, and documentation

Cloud & Deployment: Vercel, Cloudflare, DigitalOcean, Docker, Linux, GitHub Actions, CI/CD, Blue-Green Deployment

Testing & Development Practices: Vitest, Playwright, Git, GitHub, Automated Testing, SDLC, Agile Development

Additional: Android Studio, ML Kit, Progressive Web Apps (PWA), Responsive Design, Accessibility

EDUCATION

Bachelor of Science in Computer Science | STI College Fairview Completed Third-Year Standing

- Coursework includes web development, database management, software engineering, systems analysis and design, object-oriented programming, Android development, .NET MAUI, and Unity.

CERTIFICATIONS

MongoDB Node.js Developer Path — MongoDB, Jul 2026

Getting Started with MongoDB Atlas — MongoDB, Jul 2026

From Relational Model (SQL) to MongoDB's Document Model — MongoDB, Jul 2026
